

SCE Ministries

The purpose of SCE is to facilitate the planting of new churches, to assist struggling churches and to provide ministry training for churches, pastors and men preparing for ministry.

Church Planting:

SCE provides a training and networking strategy to facilitate the starting of new churches throughout the Southeast.

New Beginnings:

Some struggling churches have the need to begin again. SCE can offer many necessary tools to help with a fresh start.

Pulpit Supply:

When churches find themselves without a shepherd, SCE can assist with Bible teaching and counsel, and introduce them to qualified candidates.

Reality Check:

SCE helps churches evaluate current ministry needs and offers a Bible based strategy of solutions.

Internships:

SCE brings networking to interns and trainees with interested churches and experienced pastors.

SCE Leadership

Rev. Daniel Nave
Executive Director

***Bringing Ministry to
Pastors and Churches***

www.southeastchurches.org

A native of northern Indiana, SCE Exec. Dir. Dan Nave has spent over 30 years in career local church ministry. As a factory worker with a heart for pastors and churches, and desiring an itinerant ministry, Dan was advised by a mentor to "spend a long time" pastoring churches first.

He took that to heart, and went to Bible College at age 30. After graduating, he was an Associate Pastor, a Senior Pastor for 11 years, and was the founding pastor of Heritage Bible Church in Remington, Indiana, where he served another 11 years before establishing SCE in 2014.

During those years, Dan was involved in all aspects of pastoral ministry. In addition, he has served in various roles of ministry outside the church, including the development and implementation of the training ministry for Midwest Church Extension, helping organize and lead Checkpoint Bible Camp, and mentoring 14 interns.

Dan has served in roles of leadership in 4 IFCA Int. Regionals and has been a speaker at several camps and Bible colleges across the country.

He married Cheryl McCool in 1974 and they have 3 children and 8 grandchildren. They reside where Dan always considered home, the homeland of his paternal family, in east Tennessee.

These eight southeastern US states are the field of ministry where SCE works to train and mentor pastors and church planters, provide counsel and assistance to churches, and facilitate the planting of new churches.

S Campaign E

As a faith ministry, the SCE Campaign is the SCE strategy to raise \$100,000 to help bring ministry to pastors and churches.

The SCE leadership team has almost 250 years of combined ministry experience, which provides a valuable tool for churches, pastors, Bible institutes, colleges and seminaries, and aspiring pastors and their wives.

SCE helps churches develop internships and mentoring ministries.

SCE offers church health conferences and training, church health assessment, pulpit supply, facility advice and ministry retreats.

SCE has the endorsement of three IFCA Regional fellowships:

The Cumberland Regional represents western Virginia, eastern Kentucky and Tennessee, and is the home base of SCE.

The Atlantic SE Regional represents Georgia, South Carolina and North Carolina.

The Gulf States Regional represents Mississippi and Alabama.

SCE is a member IFCA Int., a trusted fellowship of almost 2,000 churches, schools, mission agencies, pastors, missionaries, educators, chaplains, and Christian workers.

It serves and assists IFCA and independent ministries in the Southeastern USA.
